Department of Rural Development  
(Rural Housing Division)

Krishi Bhawan, New Delhi

Dated : 12<sup>th</sup> March, 2018

To

The Principal Secretary/Secretary  
Of All States/UTs  
Dealing with PMAY-G

Subject: Reconciliation of IAY figures in AwaasSoft and closure of all IAY cases for 2015-16 and prior years regarding:-

Sir/Madam,

I am directed to refer to the module that is developed for Reconciliation of IAY figures in AwaasSoft and closure of all IAY cases for 2015-16 and prior years. During the National Consultation held on 16<sup>th</sup> January, 2017, Secretary (RD) had reiterated that all the IAY cases need to be closed by 31<sup>st</sup> March, 2018. Further, it has been decided that the figures as reported in AwaasSoft would be taken as the base for reporting the achievements and the time limit that has been given to the States is 31<sup>st</sup> March, 2018 to do all the entries.

2. In this regard, a module has been designed on AwaasSoft at the block level, for reconciliation of IAY figures in AwaasSoft and closure of all IAY cases for 2015-16 and prior years. Following are the features of the new module:

1. Single page entry system for all IAY cases for years 2015-16 and prior. All the existing alternate systems of data entry in AwaasSoft for IAY houses have been done away with.

2. There is flexibility in the system to determine the pending value of installments subject to the upper limit of sanctioned amount to the beneficiary for a particular year. This will deal with the issue of different amount of installments paid against the pre- determined installments in the past years

3. Uploading the photograph of the completed house: -

i). Geo-tagged and time stamped photograph taken through AwaasApp (Note: AwaasApp should only be used to take the photograph of the houses at their real location and should not be used for clicking a photograph of the scanned copy of the house).

4. Use of FTO as the only mode of payment for the payment of the pending IAY cases.

5. Generation of FTOs for special cases where the house has been reported as completed in AwaasSoft, but there are still some payments pending. In this regard, the module will also cater to the cases where the house have been shown as completed on AwaasSoft, however, some

payments are still pending. In that regard, after making the pending payments through the FTO, the block needs to upload the final photograph of the completed house through AwaasApp.

The states are required to use this module for reporting completions of IAY houses on AwaasSoft.

Yours faithfully

(M. Rama Krishna)

Under Secretary to Govt. of India
